

# Building software to transform the energy

We're building an entire organisation  
and are **looking for tech talents**  
who can help solve the most exciting  
industrial challenges out there.

RGU Hackathon, 25<sup>th</sup> February 2023

Michael Topp, Engineering Manager, Aize

So what  
is Aize?

Aize is the **workspace** that allows you to **visualise, navigate, collaborate** and work on a **digital representation of an asset.**
